

Please do not weaken Wisconsin's "DO Not Call List". The banking establishment that wants this is seriously in the wrong. The good people of this state have spoken loud and clear as to their wishes regarding telemarketing invasions of privacy. Our peace of mind should not be compromised just because some big corporation doesn't like the policy. If the list is weakened, it sets a dangerous precedent, and soon our list will be worthless in the face of all the challenges.
thank you
